Simphiwe Mbonani

has successfully completed the online, non-credit Specialization

SIEM Splunk Hands-On Guide

In recognition of your unwavering dedication and outstanding performance, we hereby acknowledge your mastery of Security Information and Event Management (SIEM) concepts, coupled with the practical proficiency required to harness Splunk as a formidable SIEM solution. Throughout this intensive program, you have delved into various facets of SIEM, including but not limited to, adeptly managing logs, efficiently handling data collection and administration, visualizing data for insightful analysis, and navigating advanced topics like correlation, incident response, and security use cases. Your demonstrated skills in these vital areas empower you to confidently utilize Splunk for log analysis, proactively detect and counter threats, swiftly respond to incidents.
